

AVERAGE FIRST POINT OF SALES PRICES BY AVERAGE WEIGHTED VALUE

Our prices represent the average transaction price (by weighted average value) for the designated products. These prices are a combination of both domestic and import shipments. The domestic prices include both contract and spot market values and are first point of sale (FOB mill). Import values are calculated CIF, duty paid from official US Customs declarations. Import prices may lag domestic values by a minimum delay of 90 days due to shipment times. All values are in U.S. per net ton. Land freight has not been included.
